On-Line Classes: Student Evaluation of Teaching-Fall2012

Only HuskyCT classes being taught completely on-line will be evaluated on-line.

This does not apply to web assisted classes nor is it an option at this time to have an “in person” class rated in this manner. Courses must be listed as having “WWW” instruction mode in PeopleSoft. The summary results of the Primary Instructor surveys of these classes will be included in the Normative Profile reports for Department, School and Total University.

Instructors should email their class roster to alert them of the opportunity to complete the survey between 11/26/12 through 12/7/12. Start and end times are set for 11:59 pm.

The students in each class roster will access a link for the secure log-in page which will require their Net id and password. This link will appear on their HuskyCT homepage under “Student Surveys Available On-line” then “Student Evaluation of Teaching”. Each student will then have access to a page of links, one for each of the on-line classes in which they are enrolled. When they click one of the links, the survey for that class will appear. Once they have submitted the survey, they will no longer have access. Instructor access is available one week prior and only to add up to three questions. The access for instructors closes prior to the opening of the survey to students.

UITS has created programming to merge the results of this survey with that of the paper based surveys. Summary results will still be paper based and sent to each instructor via University Mail Services. Comments from the students for these instructors will be available from 12/20/12 to 1/28/12. Only the instructor will have access via a link for the survey(s) that will appear under on their HuskyCT homepage. There is no access to the actual survey that the students complete available to the instructor.

If you have questions concerning the evaluations, please contact Cheryl Williams at the Office of Institutional Research at (860) 486-1910 or Cheryl.Williams@UConn.edu
