On-Line Classes: Student Evaluation of Faculty-Fall2007

On-line classes with no in-person class time (designated as “WW” in PeopleSoft) will be evaluated on-line. This does not apply to web assisted classes nor is it an option at this time to have an “in person” class rated in this manner. The summary results of the Primary and Secondary (Team Taught) Instructor surveys of these classes will be included in the Normative Profile reports for Department, School and Total University.

Instructors should email their class roster to alert them of the opportunity to complete this survey between 11/24/07 through 12/07/07. The start and end times are set for midnight.

NEW THIS SEMESTER is the option for each instructor to add their own questions at the end of the survey. There is a limited time for the instructors to do so. The dates that the questions may be added are 11/12/07 through 11/23/07. Open and close times are set for midnight. An active, secure link will be available from the instructor’s “HuskyCT” homepage under “Bookmarks”. Once the time period for this has passed, the instructor will be denied access to the additional question area of the survey.

The students in each class roster will be sent a link for the secure log-in page which will require their Net id and password. This link will appear on their “HuskyCT” home page under “Bookmarks”. Each student will then need to enter their netid and password again to have access to a page of links, one for each of the on-line classes in which they are enrolled. When they click one of the links, the survey for that class will appear. Once they have submitted the survey, they will no longer have access.

UI TS has created programming to merge the results of this survey with that of the paper based surveys. Summary results will still be paper based and sent to each instructor via University Mail Services. Comments of the students for these instructors will be available to the instructor only via the link for the survey(s) that will appear under “Bookmarks” on their “HuskyCT” homepage. Comments will be available from 12/22/07 through 1/11/08. There is no access to the actual survey that the students complete available to the instructor.

If you have questions concerning the evaluations, please contact Cheryl Williams at the Office of Institutional Research at (860) 486-1910 or Cheryl.Williams@UConn.edu.
